ONS KENMERK  
UW KENMERK  
LEUVEN,

## Vacancy for **A RESEARCH ASSISTANT** in the ORSTAT research group K.U.L.

We are looking for a full-time pre-doctoral research assistant for the period of Oct. 1, 2007 until Sept. 30, 2009 (possibly until 2011) to conduct research within the research group ORSTAT (Operations Research & Business Statistics) of the faculty of economics and management. The research should lead to a Ph.D. degree. You will find a dynamic and pleasant working environment, in a group which conducts research at the highest international level.

Candidates should preferably have a background as Master of Science in Statistics, Business Engineering, Mathematics, Applied Economics, Economics, Civil Engineering or Computer Science.

We expect you to have a great interest in statistics. An average yearly result of "distinction" during the university education is required, as is a decent knowledge of written and spoken English. Knowledge of Dutch is an advantage. The most important thing is that you share our enthusiasm for scientific research.

For further information you can contact the promoter, professor Martina Vandebroek at **[martina.vandebroek@econ.kuleuven.be](mailto:martina.vandebroek@econ.kuleuven.be)**

You can send your application letter with motivation and a detailed curriculum vitae (including exam results), either via email to: **[martina.vandebroek@econ.kuleuven.be](mailto:martina.vandebroek@econ.kuleuven.be)** or by regular mail to the following address: Prof. Martina Vandebroek, Naamsestraat 69, 3000 Leuven, Belgium, and this before July 16, 2007.
